TSC Registration No: 1071786 TVETA License No: TVETA/T246743

PROFESSIONAL SUMMARY

Google-certified IT Support Specialist, Web Developer, and TSC-registered Teacher with a Bachelor of Education (Second Class Honours – Upper Division) and a broad, versatile skill set spanning technical support, full-stack web application development, AI tools operation, and classroom instruction. Experienced in diagnosing and resolving software issues, managing SaaS platforms and Firebase-backed systems, building and deploying live web applications, and delivering Digital Literacy and IT education to diverse learners. Former institutional Principal with hands-on leadership experience in academic administration, staff management, and regulatory compliance. Holds a Google IT Support Professional Certificate, a Bridge International Teacher Training Certificate (April 2026), and TVETA licensing. Proficient with Google Workspace, Microsoft 365, Firebase, REST APIs, JavaScript, Paystack, and leading AI tools. Available immediately for remote roles, open to full relocation, and committed to delivering high-quality results from day one.

PROFESSIONAL EXPERIENCE

Examination Invigilator Feb 2025 – Mar 2026
British Council · Freelance Contract

- Administered high-stakes international examinations in strict accordance with British Council protocols, ethical standards, and regulatory requirements
- Conducted candidate identity verification, managed secure distribution and collection of examination materials, and maintained a zero-irregularity record across all supervised sessions
- Produced accurate digital incident reports and session documentation, ensuring full audit-trail compliance
- Collaborated with British Council coordinators and centre staff to ensure consistent adherence to international assessment standards

Principal & IT Operations Lead January 2025 – December 2025
Mountsview Vocational & Technical Training Institute

- Managed all digital systems including student records databases, academic scheduling tools, and administrative software, providing frontline IT support to non-technical staff daily
- Taught TVETA-accredited units: Digital Literacy, Communication Skills, and Employability Skills to vocational learners across multiple cohorts
- Provided IT troubleshooting support — diagnosing software issues, managing user accounts, resolving access problems, and maintaining system integrity
- Ensured full compliance with TVETA regulatory frameworks, preparing and maintaining documentation for quality audits and accreditation reviews
- Managed end-to-end student lifecycle: admissions, enrolment, academic records, progress monitoring, and examination coordination
- Implemented process improvements that reduced manual administrative workload by 40% through digital tools and workflow automation
- Mentored and supervised teaching staff, fostering a culture of professional development, accountability, and high academic standards

PROFESSIONAL EXPERIENCE (CONTINUED)

Digital Literacy & Communication Skills Trainer
Hewitt and Bernet International School

January 2024 – December 2024

- Planned and delivered engaging lessons in Digital Literacy, Communication Skills, and Entrepreneurship to 100+ students across multiple ability levels
- Designed schemes of work, lesson plans, and assessment tools aligned to curriculum objectives and real-world learner outcomes
- Integrated practical technology activities including computer skills, internet tools, and workplace software to build students' digital confidence
- Tracked student progress through formative and summative assessments, providing constructive feedback to support continuous improvement

Secondary School Teacher — Geography & Kiswahili
St. Mark's High School · TSC Registered

May 2023 – December 2023

- Delivered Geography and Kiswahili lessons to secondary students aligned with the Kenya CBC curriculum framework
- Created inclusive learning environments that promoted critical thinking, participation, and strong academic achievement
- Maintained academic records, marked assessments and examinations, and reported on student performance to school leadership
- Provided student mentoring, guidance, and personal support to help learners stay motivated, focused, and on track academically

TECHNICAL PROJECTS

SwiftCV — AI-Powered CV & Cover Letter Builder

JavaScript · Groq AI API · Paystack · GitHub Pages

- Built a fully functional AI-powered CV and cover letter generator targeting the Kenyan job market. Integrated Groq's LLaMA AI model for intelligent document generation and Paystack for KES payment processing. Live on GitHub Pages.
